How would **you** spend **\$60 Million** if **you** wanted to **halve homelessness** by 2010?

Background

Recently the Premier Paul Lennon announced the immediate release of \$60 million dollars (for buildings only) to house homeless people. Shelter is seeking the input of members regarding what they think would be the best way to use the money in their region. Shelter will then compile this information into a report that will be sent to the Premier. Any identifying information within the individual responses will be removed to ensure members feel confident in providing open and honest feedback.

To support us in ensuring Shelter Tas members views are heard, can you please answer the questions below?

Questions

1. What region is your service based in?

- 1.South 2.North 3.North West 4.West 5.East

Please circle

2. To address homelessness in your region what are the top 5 solutions you believe the \$60 million should be used for?

(For example: affordable long term housing, emergency/crisis accommodation, long term support, public housing, community housing, legislative protection, housing or support for a specific age group or need, planning.)

1. _____
2. _____
3. _____
4. _____
5. _____

3: How would you see these solutions being implemented in your region?
